RE: Freedom Green

Dear Mr. Cesaro:

With the completion of Freedom Green now behind us, I am writing to commend your company on an outstanding job. The transformation of the former vacant lot on which the park is now located was truly amazing. In particular, I would like to compliment your site superintendent, Mark Ceprano and his crew, on completing the park in time for the formal dedication, in the face of a number of challenges. The City has received, and continues to receive a number of compliments on the park.

The quality of your work certainly speaks well of your company and employees. Thanks to your efforts, the people of the City of East Providence now have a beautiful place to come, relax and recreate.

We look forward to working with again on future projects.

Sincerely,

Paul E. Lemont
City Manager
