RE: #3579 Brown University
Pembroke Hall Renovations - Phase 1

Dear Mr. Cesaro

Now that the dust has finally settled from the phase one renovation to Pembroke Hall at Brown University, we would like to take this opportunity to thank you for your contribution in making this project a huge success for our client. The superb effort put forth by your entire organization and especially the personal dedication and commitment exemplified by Mike Donatelli and Paul Blanchet are the very attributes which set your firm apart from the competition. It is the collective efforts of quality organizations such as yours that allows Shawmut Design and Construction to successfully complete complicated, ultra-fast-track, projects time and time again with a level of client service second to none.

On behalf of Shawmut Design and Construction I would like to both thank you and congratulate your entire organization on this achievement. We look forward to many successful projects in the future.

Sincerely,

A handwritten signature in blue ink, appearing to read "Lee Dellicker", written over a horizontal line.

Lee Dellicker
Vice President
